

## Year 1 Home Learning

Every *Friday*, your child will be given spellings and handwriting home learning to be brought back to school the following *Wednesday*.

Your child will also be given a book to take home and read on a weekly basis. They will be given a reading record for you to record the sharing of the book with your child. More information about this will follow.

Each term your child will be given a project based on our class topic. This can be completed in your child's own time and shared with the class when brought into school!

### Home Learning Project

Our topic this term is **Amazing Animals!** We are learning about fish, amphibians, reptiles, birds and mammals.

Choose at least one activity from the home learning projects below:

- Make an animal out of salt dough and paint it (see salt dough recipe on the back)
- Create a sculpture, drawing, painting or model of your favourite animal
- Make a small animal world in a shoe box. This could be an ocean, rainforest or desert
