

Year 1 Home Learning- Spring 2

Every **Friday**, your child will be given spellings and maths home learning to be brought back to school the following **Wednesday**.

Your child will be given a book to take home and read on a weekly basis. They will be given a reading record for you to record the sharing of the book with your child. When you have shared with your child at least 3 times, please return the book for it to be changed.

Each term your child will be given a project based on our class topic. This can be completed in your child's own time and shared with the class when brought into school!

Home Learning Project

Our topic this term is **Where in the U.K.?** We will be learning about the 4 countries in the UK, naming and locating their capital cities and the surrounding seas. We will also be designing and creating our own containers using recycled materials.

Choose at least one activity from the home learning projects below (or be creative and think of your own):

- Design and make your own container at home out of recycled materials. You could make a pencil pot or plant pot and decorate it.
- Make a poster to teach people how to reduce, reuse and recycle.
- Create a 3D model of the U.K. You could use different coloured tissue paper for each country or make flags for them.
- Make a Union Flag or design your own!
- Do you know anyone from a different country? Can you ask them questions about what that country is like and present the information you have found out?
