

Year 1 Home Learning Project

Every **Friday**, your child will be given one piece of English home learning, one piece of maths home learning and an individual reading book to be brought back to school when they have finished reading it or the following **Wednesday**.

Children that hand home learning in on time will be rewarded with stickers!

As well as this, each term your child will be given a project based on our class topic. This can be completed in your child's own time and shared with the class when brought into school!

Last term, we were really pleased to see some fantastic beds made for Goldilocks and story boxes to retell the story. Well done!

Our topic this term is '**Green Fingers**'

Choose at least one activity from the home learning projects below. You can choose how you would like to present it.

- Plant your own seed at home, look after it and keep a plant diary.
- Create an information poster about how to plant a seed and look after it.
- Design a miniature garden. What would you have in it? What flowers would you plant? What trees would be in it?
- Design your own spectacular plant! What have you named it? Where in the World does it live? What makes it spectacular?
- Draw and colour in, paint or make a collage to create your own version of Vincent Van Gogh's Sunflowers.
- Log-in to Purple Mash to create an animation of a plant growing.
