

Our topic next term is **'Master Builders'**

We have a History and Science focus next term. We will investigate different materials and look at different historical landmarks including learning about the great fire of London!

Choose at least one activity from the home learning projects below. You can choose how you would like to present it.

- Make a fact poster/ page about a famous structure e.g. the pyramids, tower of London or houses of parliament
- Make a fact poster about the Great Fire of London
- Create a sculpture , drawing, painting or model of a famous landmark or building
- Design your own building
- Make a small world of a city or town
- 'What would you build your house out of?'
Conduct a simple experiment using different materials and record your findings to share with the class
