

## Year 2 Home Learning Term 6

### Safari

Every Friday, children will be given one piece of English home learning, one piece of maths home learning, spellings and handwriting to be completed by the following Wednesday. This will follow on from the learning that has been done in class and that will allow your child to practise applying their new knowledge to different activities.

Children that hand home learning in on time will be rewarded with stickers!

As well as this, each term children will be given a project based on their class topic. This can be completed in the children's own time and shared with the class at the end of the term!

### Home Learning Project

Our topic this term is 'Safari'.

Choose at least one activity from the home learning projects below. You can choose how you would like to present it. Bring your finished project to school on Wednesday 11<sup>th</sup> July so we can share them with the whole class.

- Be a nature detective and explore your local area for different animals, plants and their habitats. Create a poster or information text about what you found.
- Create a habitat box, for example, a desert habitat, polar habitat or woodland habitat.
- Research different African animals and create a booklet about what you have found out.
- Talk to a family member or family friend who comes from a different country. Find out about the food, weather, music and landscape of where they are from. Create a poster or information text to compare that country with your local area.
