

Year 4 Home Learning Term 4

Every Friday, children will be given homework to be completed by the following Wednesday.

Children that hand in homework on time will be rewarded at the end of term.

In addition, each term children will be given a project based on their class topic. This can be completed in the children's own time and shared with the class at the end of the term!

Home Learning Project

Our topic this term is 'Electricity' and Design and Technology. Please choose at least one activity from the home learning projects below. You can choose how you would like to present it. Bring your finished project to school by Monday 1st April so we can share them with the whole class.

Here are some ideas:

- Write a poem about electricity and perform it to the class
- Present a report on a famous electrical invention or inventor
- Create a Maths board game
- Do a science experiment and present your findings in a creative way
- Design and make a product of your choice
