

## Year 5 Home Learning

Every Thursday, children will be given one piece of literacy Home Learning and one piece of numeracy Home Learning to be completed by the following Wednesday.

The children will independently mark a grid to show that their homework has been given in on time.

As well as this, each term children will be given an optional project to complete based on their class topic. This can be completed in the children's own time and shared with the class at the end of the term! Children that hand Home Learning will be rewarded with stickers and home learning will be shared in our whole school assemblies.

### Home Learning Project

Our topic this term is based on 'The Rockin Romans!'

Choose at least one activity from the home learning projects below. You can choose how you would like to present it. Bring your finished project to school by Friday 28<sup>th</sup> September so we can share them with the school.

- Research and write about what the Romans might have eaten. You could draw the dish or make a Roman dish and bring it in for us to try!
- Write a diary entry about a day in the life of a Roman adult or child.
- Sketch or create a 3D model of a Roman village.
- Design and make a piece of Roman weaponry.
- Create an information page about an aspect of Roman life which interests you the most.
- Design and make an eye-catching t-shirt for tourists after visiting a site in ancient Rome.
