Year 5 English and Maths Objectives 2018 - 2019

ENGLISH

English Guided Reading and Reading Across the Curriculum

Reading - word reading

apply their growing knowledge of root words, prefixes and suffixes (morphology and etymology), as listed in English Appendix 1, both to read aloud and to understand the meaning of new words that they meet

Reading - comprehension

maintain positive attitudes to reading and understanding of what they read by:

- continuing to read and discuss an increasingly wide range of fiction, poetry, plays, non-fiction and reference books or textbooks
- reading books that are structured in different ways and reading for a range of purposes
- increasing their familiarity with a wide range of books, including myths, legends and traditional stories, modern fiction, fiction from our literary heritage, and books from other cultures and traditions
- recommending books that they have read to their peers, giving reasons for their choices
- identifying and discussing themes and conventions in and across a wide range of writing
- making comparisons within and across books
- learning a wider range of poetry by heart
- preparing poems and plays to read aloud and to perform, showing understanding through intonation, tone and volume so that the meaning is clear to an audience understand what they read by:
 - checking that the book makes sense to them, discussing their understanding and exploring the meaning of words in context
 - asking questions to improve their understanding
 - drawing inferences such as inferring characters' feelings, thoughts and motives from their actions, and justifying inferences with evidence
 - predicting what might happen from details stated and implied
 - summarising the main ideas drawn from more than one paragraph, identifying key details that support the main ideas
 - identifying how language, structure and presentation contribute to meaning

discuss and evaluate how authors use language, including figurative language, considering the impact on the reader

distinguish between statements of fact and opinion

retrieve, record and present information from non-fiction

participate in discussions about books that are read to them and those they can read for themselves, building on their own and others' ideas and challenging views Courteously explain and discuss their understanding of what they have read, including through formal presentations and debates, maintaining a focus on the topic and using notes where necessary provide reasoned justifications for their views

English-Writing

Handwriting and presentation

write legibly, fluently and with increasing speed by:

- choosing which shape of a letter to use when given choices and deciding whether or not to join specific letters
- choosing the writing implement that is best suited for a task

Writing - composition

plan their writing by:

- identifying the audience for and purpose of the writing, selecting the appropriate form and using other similar writing as models for their own
- noting and developing initial ideas, drawing on reading and research where necessary
- in writing narratives, considering how authors have developed characters and settings in what pupils have read, listened to or seen performed

draft and write by:

- selecting appropriate grammar and vocabulary, understanding how such choices can change and enhance meaning
- in narratives, describing settings, characters and atmosphere and integrating dialogue to convey character and advance the action
- précising longer passages
- using a wide range of devices to build cohesion within and across paragraphs
- using further organisational and presentational devices to structure text and to guide the reader [for example, headings, bullet points, underlining]

evaluate and edit by:

- assessing the effectiveness of their own and others' writing
- proposing changes to vocabulary, grammar and punctuation to enhance effects and clarify meaning
- ensuring the consistent and correct use of tense throughout a piece of writing
- ensuring correct subject and verb agreement when using singular and plural, distinguishing between the language of speech and writing and choosing the
 appropriate register

proof-read for spelling and punctuation errors

perform their own compositions, using appropriate intonation, volume, and movement so that meaning is clear

Writing - vocabulary, grammar and punctuation

develop their understanding of the concepts set out in English Appendix 2 by:

- recognising vocabulary and structures that are appropriate for formal speech and writing, including subjunctive forms
- using passive verbs to affect the presentation of information in a sentence
- using the perfect form of verbs to mark relationships of time and cause
- using expanded noun phrases to convey complicated information concisely
- using modal verbs or adverbs to indicate degrees of possibility
- using relative clauses beginning with who, which, where, when, whose, that or with an implied (i.e. omitted) relative pronoun
- learning the grammar for years 5 and 6 in English Appendix 2

indicate grammatical and other features by:

- using commas to clarify meaning or avoid ambiguity in writing
- using hyphens to avoid ambiguity
- using brackets, dashes or commas to indicate parenthesis
- using semi-colons, colons or dashes to mark boundaries between independent clauses
- using a colon to introduce a list
- punctuating bullet points consistently

use and understand the grammatical terminology in English Appendix 2 accurately and appropriately in discussing their writing and reading.

English-	Boudicca	The Man Who Walked	The Princess' Blanket	The Lost Thing	MacBeth	Can We Save the Tiger?
_		Between Two Towers				and the care and tiget

Maths	count forwards or backwards in steps of powers								
	count forwards or backwards in steps of powers								
	1	6.06	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit						
	interpret negative numbers in context, count for	count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000							
	interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero								
	round any number up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100 000								
	solve number problems and practical problems that involve all of the above								
	read Roman numerals to 1000 (M) and recognise years written in Roman numerals								
	Number – addition and subtraction								
	add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction)								
	add and subtract numbers mentally with increasingly large numbers								
	use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy								
	solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why								
	Number – multiplication and division								
	identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers								
	know and use the vocabulary of prime numbers, prime factors and composite (nonprime) numbers								
	establish whether a number up to 100 is prime and recall prime numbers up to 19								
	multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers								
	multiply and divide numbers mentally drawing upon known facts								
	divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context								
	multiply and divide whole numbers and those involving decimals by 10, 100 and 1000								
	recognise and use square numbers and cube numbers, and the notation for squared and cubed								
	solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes								
	solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign								
	solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates								
	Number – fractions (including decimals and percentages)								
	compare and order fractions whose denominato	rs are all multiples of the same number							
	identify, name and write equivalent fractions of	a given fraction, represented visually, including tenths and	hundredths						
	recognise mixed numbers and improper fraction	s and convert from one form to the other and write mather	matical statements > 1 as a mixed number [for example, $\frac{1}{3}$ + $\frac{4}{5}$ = 6/5 = 1 $\frac{1}{5}$]						
	add and subtract fractions with the same denom	inator and denominators that are multiples of the same nu	ımber						
	multiply proper fractions and mixed numbers by	whole numbers, supported by materials and diagrams							
	read and write decimal numbers as fractions [for	r example, 0.71 = 71/100]							
	recognise and use thousandths and relate them	to tenths, hundredths and decimal equivalents							
	round decimals with two decimal places to the n	earest whole number and to one decimal place							
	read, write, order and compare numbers with up	to three decimal places							
	solve problems involving number up to three de	cimal places							
	I	•	nd write percentages as a fraction with denominator 100, and as a decimal						
	solve problems which require knowing percentage	ge and decimal equivalents of ½, ¼, ½, ¾, ¼ and those fraction	tions with a denominator of a multiple of 10 or 25						

Measurement

convert between different units of metric measure (for example, kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre) understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints

measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres

calculate and compare the area of rectangles (including squares), and including using standard units, square centimetres (cm2) and square metres (m2) and estimate the area of irregular shapes

estimate volume [for example, using 1 cm3 blocks to build cuboids (including cubes)] and capacity [for example, using water]

solve problems involving converting between units of time

use all four operations to solve problems involving measure [for example, length, mass, volume, money] using decimal notation, including scaling

Geometry – properties of shapes

identify 3-D shapes, including cubes and other cuboids, from 2-D representations

know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles

draw given angles, and measure them in degrees

Identify:

- angles at a point and one whole turn (total 360)
- angles at a point on a straight line and ½ a turn (total 180)
- other multiples of 90 degrees

use the properties of rectangles to deduce related facts and find missing lengths and angles

distinguish between regular and irregular polygons based on reasoning about equal sides and angles

Geometry - position and direction

identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed

Statistics

solve comparison, sum and difference problems using information presented in a line graph

complete, read and interpret information in tables, including timetables
