

For the attention of - the parents of Emerald Class pupils and those who have been contacted directly on Friday evening by Mr Farrell or Ms Alleman

22rd April 2021

Advice for your child to self-isolate for 10 days

Dear Parent,

We have been informed that a person in Emerald Class, part of the Reception bubble, has tested positive for coronavirus (COVID-19).

What has the school done?

A full risk assessment has been carried out. We have followed the national public health guidance and have identified that your child has been in close contact with the affected person. **Your child must now stay at home and self-isolate for ten full days after the date they were last in contact with the person who tested positive. This means they can stop isolating at 23:59 on 3rd May 2021 and return to school on Tuesday 4th May 2021.**

What do you need to do?

- Your child needs to self-isolate for 10 full days. They should not leave your home except in exceptional circumstances, for example for a medical emergency or to avoid a risk of harm. They cannot go to school/nursery or public areas. People can become infectious up to 2 days before symptoms begin and they could spread the disease to others if they do not go into self-isolation. Your child should try to avoid contact with vulnerable family members as much as possible.
- **Other members of your household do not need to self-isolate during the 10 days if your child does not have symptoms.** They can continue normal activities.

What to do if my child develops symptoms during the 10 days

For most people, COVID-19 will be a mild illness. However, if your child develops ANY of the three main symptoms of COVID-19, a new continuous cough, a high temperature, a change in their normal sense of taste or smell they should stay isolating at home and have a test as soon as possible. All other household members must self-isolate whilst you wait for result. See the PHE [Staying at Home Guidance](#).

- **If the test result is negative** – your child must continue to self-isolate until the end of the original 10 full days, as they could still develop COVID-19. The rest of the household can stop isolating, unless someone gets new symptoms.
- **If the test result is positive** – your child must self-isolate for 10 full days from when their symptoms started. The rest of the family will also need to self-isolate for 10 full days from when your child's symptoms started.

What to do if my child does not develop symptoms of COVID-19 during the 10 days

They need to stay at home for the full 10 days because it can take 10 days for symptoms of COVID-19 to develop. If your child does not stay at home, there is a chance that they could pass on COVID-19 to someone else, even if they feel well. Even if they never develop symptoms, they can still be infected and pass the virus on without knowing it.

If your child is well at the end of the 10-day period of self-isolation, they can return to usual activities.

We know that this is a difficult time for families and thank you for your support as we work to keep our school and wider community safe.

Lambeth Council is here to support everyone affected in whatever way by Covid-19. You will find further details of support online at beta.lambeth.gov.uk/covid-get-support.

If you urgently need shopping or other practical support, please contact the Lambeth MyCommunity service who can arrange help for you on 0333 360 3700 or email mycommunity@ageuklambeth.org. The service is open Mon-Fri 9am-5pm. This service can also provide advice on any financial benefits you might be eligible for.

NHS Volunteers also provide support such as delivery of food, prescriptions, and telephone befriending. You can visit <http://www.nhsvolunteerresponders.org.uk> or call 0808 196 3646, 8am to 8pm.

If you already claim benefits or tax credits, and looking after a dependent causes you additional financial difficulty, you could apply for the council's Emergency Support Scheme to help you pay for utilities bills or other emergency costs. Go to beta.lambeth.gov.uk/ess or call 0345 302 2312.

Yours sincerely,

Headteacher

Gavin Farrell
