

My story about going back to school

My school was closed for a while.

I stayed at home when school was closed.

Now my school is ready to open again.

When I go back to school some things will be the same and some things will be different.

Things that will be **the same** are:

The school building

The adults who work at school (add photos of familiar adults)

The children

The way I travel to school (add photo/ symbol as appropriate) – move to next section depending on the child

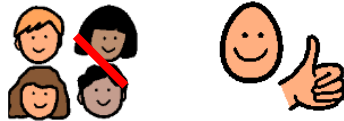

Things that will be **different** are:

My timetable

Here is a calendar showing which times and days I am going to go to school (insert below)

Not all of my friends will be at school at the same time as me. This is ok.

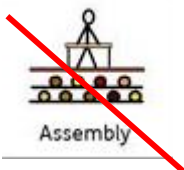

I will sit in a different seat. My teacher will show me where to sit. This is ok.

I will have different lunch and playtimes. This is ok.

There will not be assemblies.

If I feel worried I can tell an adult.

worried

The adults at my school will help me.

I need to go to school to learn new things and have fun. It is good to go to school.
