

Science Monday 01/06/20

**WALT grow food from scraps of vegetables!**

Can you remember what plants need to grow?

How could you grow a vegetable when you have already eaten it?

Watch this video from the Royal Parks to find out how:

<https://www.youtube.com/watch?v=RO465lmZDJE>

Have a go and let us know how you get on!

You could use a lettuce, garlic cloves, spring onions or any herb.

Remember to change the water every so often.

**Challenge:**

- How long do you think your vegetable or herb will take to grow?
- How do you think your vegetable or herb will change?
- Will it change at the top, at the bottom or both?

Draw or take a picture of what your vegetable looks like now. Draw or write a **prediction** about how you think it will change.

**Music Monday 01/06/20 (and everyday or whenever you can!)**
