

Music/Science Wednesday 03/06/20

WALT make a jam jar xylophone.

- Do you like listening to music?
- Do you like making music?
- How could you make music from objects around your house?

Watch this video from BBC Bitesize to see how children make music using jam jars, a wooden spoon and water:

<https://www.bbc.co.uk/bitesize/articles/zkgkwtv>

Make your own jam jar xylophone

Make your own jam jar xylophone like the children in the video. If you don't have jam jars you can use glasses, cups, bowls or anything else you can find. Remember to ask an adult before you use anything made from glass.

Challenge:

What do you want to find out?

- Does the sound change when you tap the jar in different places?
- Does the sound change when you add more or less water to a jar?
- Does the sound change when you have a bigger or smaller jar?

Draw a picture of your xylophone in your purple book and write a sentence or two about what you found out.

Music Wednesday 03/06/20 (and everyday or whenever you can!)
