WALT add together and find a part

Below you will find the link to the lesson they published for Lesson 3 Week 3 which we would like you to have a go at today, Monday.

Click on the link and follow the instructions. It is very important that you watch the video and watch the teacher explain what you have to do.

After you have watched the video, click on Get the Activity and complete the task in your books. When you have finished you can go through the answers with an adult.

Lesson 3 - Add together and find a part

The screenshot shows a lesson page with a video player on the left and two buttons on the right. The video player displays a 'Have a go' section with a number bond diagram and three addition equations: $5 + 4 = 9$, $6 + 1 = 7$, and $5 + 3 = 8$. The number bond diagram shows three separate groups: a group of 9 (split into 5 and 4), a group of 7 (split into 6 and 1), and a group of 8 (split into 5 and 3). The buttons on the right are 'Get the Activity' (with a document icon) and 'Get the Answers' (with a document icon). Below the buttons, the text reads 'Y1 Lesson 3 Find a part 2019' and 'Y1 Lesson 3 Answers Find a part 2019'.

Good Luck and enjoy!

As you complete your lessons this week, don't forget to leave your feedback on our Maths Wall...
