

Science Tuesday 12/05/20

WALT name and identify some common garden plants.

Why do you think people grow plants in their gardens?

There are many reasons. Here are some of them:

- they look and smell nice
- we can grow things to eat
- planting and caring for them can make us feel happy
- bees need them to survive

Look at the photos of 4 different plants that you might see in a garden or park.

- Have you seen any of them before?
- Do any of them remind you of anything?
- Can you describe what they look like?
- What is the same and what is different about them?

Look carefully at the shapes and colours you can see in each plant.

Pansy

Snap Dragon

Lavender

Fuchsia

Above are the names of these plants. You might want to ask an adult to help you read the last one!

Imagine you had your own garden!

- What plants would you grow? Choose one we have learned about today.
- Would you grow any fruit or vegetables?
- Would you have grass, a path or even a pond?
- Would you have a secret hideaway, treehouse or play area?

Draw your perfect garden in your purple book or make a 3D garden using an old shoe or cereal box. Here are some examples:

P.E. Tuesday 12/05/20 (and every day or whenever you can!)

WALT keep active with Jasmine!

Remember you can log in to the Jasmine Active portal with the details below.

Follow the daily timetable each day to keep active with Jasmine.

Website address: home.jasmineactive.com

Parent email: parent@crownlanep-1.com

Password: crownlanep

Music Tuesday 12/05/20 (and everyday or whenever you can!)

WALT change the tempo of our warm up song.

Marlon from Lambeth Music Service is singing with us today! Hey Bop Diddly Bop!
