

Science Monday 200420

WALT observe and describe flowers and plants in our environment.

Using junk from around your home make and decorate a pair of binoculars.

https://www.google.com/search?q=homemade+binoculars+craft&rlz=1C1GCEU_enGB894GB894&oq=homemade+bino&aqs=chrome.6.69i57j0l7.7558j0j8&sourceid=chrome&ie=UTF-8#kpvalbx=_tXqHXqaLc3BgQbEoLSgAw49

Once they are dry and ready to use, look out of your window.

What plants or flowers can you see? Draw and label the plants and flowers that you can see?

What about at home? Can you see any plants or flowers? Have a go at drawing them.

Remember to use bright colours and make your pictures look as realistic as possible.

Feel free to use paint, colouring pencils, colouring pens, crayons - or all of these! Remember to use the internet to help you name and label the plants and flowers.
