### WALT measure lengths using non-standards units

Well done for completing your first lesson online. How did you do? Now it's time to complete the next lesson of this unit.

*Below you will find the link to the lesson they published for Tuesday ( Week 1 Day 2) which we would like you to have a go at today, Thursday.*

*Click on the link and follow the instructions. It is very important that you watch the video and watch the teacher explain what you have to do.*

i

A screenshot of a lesson page. At the top, it says "Share this lesson:" followed by icons for Facebook, WhatsApp, Twitter, and a share icon. Below that is the title "To measure lengths using non-standard units" in large green text. Underneath is a paragraph: "In today's lesson we will be exploring measuring a range of household objects using non-standard units such as our hands." At the bottom is a green button that says "Start Lesson".

If it seems that it wont launch the quiz when you press the start lesson button, this is what you could try:

Close the page and reopen it.

Press 'next activity' button until you get to activity 2 which is the video.

Don't worry if you can't do the quiz today.

Good Luck and enjoy!

**Please feel free to click on the link below to tell us what you think about today's lesson**
