

Mental Warm up - listen and sing along to the following song:

<https://www.youtube.com/watch?v=4U2QLjqripY>

WALT understand how to double numbers

Hold up 1 finger. Look in the mirror. Can you see the reflection? How many fingers can you see now? 2 fingers - that's right!

Hold up 5 fingers in the mirror. How many can you see now? 10 fingers - that's right!

Because double 5 is 10. Which is the same as saying 2 groups of 5 is 10. It can also be written as $5 + 5 = 10$.

When we double a number, we add the number to itself again.

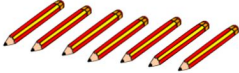

Double 1 is 2 because $1 + 1 = 2$

Double 2 is 4 because $2 + 2 = 4$

And so on...

First: practise doubling with objects from around the house such as grapes or pasta shapes.

Next: Copy and complete the table below (you can make up your own pictures):

Double	Draw the two equal groups	Answer
2		4
7		
6		
12		
8		
5		
3
