WALT: Subtract two-digit numbers

Lesson taken from BBC bitesize: <https://www.bbc.co.uk/bitesize/articles/zrnfvk7>

Today's lesson is on how to subtract two-digit numbers (for example $82 - 22 = 60$ or $45 - 17 = 28$).

This lesson includes:

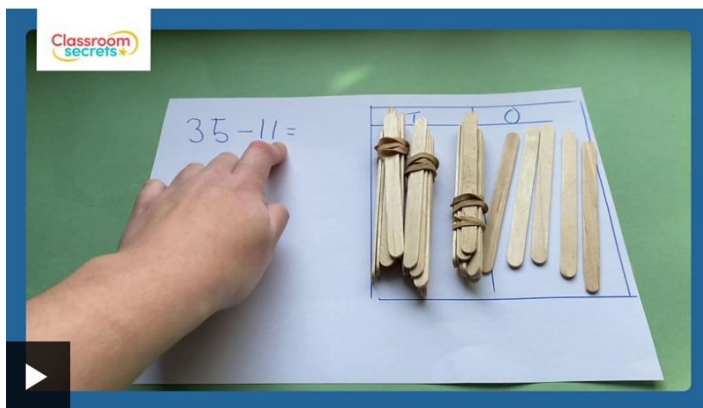

- one video
- three activities

Learn

Subtracting two-digit numbers

Watch this video from Classroom Secrets Kids that demonstrates how to subtract two-digit numbers.

Why not try using some items you have at home to represent tens and ones and do your own calculations?

Practise

Activity 1

Worksheet: Subtracting two-digit numbers

This worksheet from Numbots contains **five** tasks about subtracting two-digit numbers. Have a go at each task and see if you can get them all correct.

Finished? Check your answers [here](#).

Activity 2

Worksheet: Subtracting two-digit numbers

This worksheet from [Collins](#) contains **three** tasks about subtracting two-digit numbers. Have a go at each task. You can either print it out or write your answers on a sheet of paper.

Click [here](#) for the answer sheet. Look for the section marked 'Subtracting 2-digit numbers - Page 30 and 31'.

Activity 3

Karate Cats

Play the addition and subtraction level of Karate Cats Maths - can you collect a cool new costume for your cats?
