Your task:

First write numbers 1-14 down the side of your page. Make sure you leave enough space to draw your picture and write what the object is. Then have to draw the image of the classroom object. Next choose whether it is a, b or c and write it next to the image in Spanish and English. If you are unsure, use the vocabulary word mat and videos to help you. Remember to check your spellings throughout the task to make sure you have spelt them correctly in Spanish and English.

Choose the correct match for each of the pictures.
