WALT develop arguments

The government are enforcing a new rule on children. They think that:

Children between the ages of 6 and 11 should be responsible for all household chores. This includes:

- Washing dirty dishes
- Vacuuming the whole house
- Cooking for the family
- Dusting and polishing all of the furniture/household ornaments
- Making all of the beds before school
- Washing and ironing every item of clothing.

Do you agree with the government? I am guessing that you do not!

Next to each of the points given by the government, write down your reasons for why you think children shouldn't do that chore.

Chore	Reasons why you think children shouldn't do the chore
Washing dirty dishes	
Vacuuming the whole house	
Cooking for the family	
Dusting and polishing all of the furniture/household ornaments	
Making all of the beds before school	
Washing and ironing every item of clothing.	

Which are the 3 strongest reasons that you have from the list? Put a tick against them.
