

Thursday 11th June 2020

WALT recognise and write decimal equivalents of any number of tenths or hundredths

Let's warm up with TT rockstars

First...are you ready? Are you steady? It's time for TT Rockstars!

Please log in for your daily practise.

MAIN LESSON

Watch the video - Year 4 (w/c 8th June) Lesson 4.

<https://whiterosemaths.com/homelearning/year-4/>

After watching the video you will need to scroll down to the link below to complete the worksheet.

The screenshot shows the White Rose Maths website interface. At the top is a dark blue navigation bar with the White Rose Maths logo and menu items: Resources, Professional Development, Home Learning (highlighted in pink), Who We Are, and News. Below the navigation bar is the lesson title 'Lesson 4 - Divide 1 or 2-digits by 100'. On the left, there is a 10x10 grid of numbers from 100 down to 0.01. The number 0.02 is highlighted in blue. Below the grid is the equation $82 \div 100 = 0.82$. At the bottom left is a video player with a play button and a progress bar showing 03:44. On the right side of the page, there is a text box that says 'Looking for the worksheets? Contact your child's school to check if they have a subscription to our worksheets. Alternatively, read more here or get some extra practice from BBC Bitesize.' Below this is a purple button that says 'Already covered this content?' with a document icon, and a link that says 'Click here to find an alternative plan.'

Complete the worksheet:

<https://resources.whiterosemaths.com/wp-content/uploads/2020/05/Lesson-4-Dividing-1-and-2-digits-by-a-hundred-2019.pdf>

Remember, you can watch the video again if you get stuck.

Now check and correct your answers.

Answers to worksheet:
