

Topic – Science and Computing

In class we were working on the electricity unit in Science, we didn't finish learning about conductors or insulators so Monday and Tuesday will be watching videos and understanding about these.

The rest of the week will be spent continuing the great work we did at the beginning of term in our Scratch maths workshop.

Monday, Tuesday – Science

Wednesday, Thursday, Friday– Scratch

Monday 30th March 2020

WALT understand conductors and insulators

Success criteria: I can understand the terms conductor and insulator

I can name materials that are insulators, I can name materials that are conductors.

Task 1

Watch the following video clip and read the information that goes with it:

<https://www.bbc.co.uk/bitesize/topics/z2882hv/articles/zxv482p>

Now see if you can classify the items as insulators or conductors by clicking on this picture at the bottom of the page (below the video and text)

Task 2

Now complete this online 10 question quiz:

<https://www.educationquizzes.com/ks2/science/electrical-conductors-and-insulators/>

Task 3

In your purple book write a description of an insulator and a conductor, give 3 or more examples of each.
