

Spelling Tuesday 31.03.20

Continuing from last week's spelling pattern "shun" let us focus on the "sh" part of that syllable. The most common "sh" sound comes from SH but CH makes the same sh sound in some words. Most of these words have come from French.

Can you think of any words like that? Watch the video below and make a list of such words.

<https://www.bbc.co.uk/bitesize/topics/zt62mnb/articles/z8f3qhv>

After watching the video do the activity just below the video, which asks you to highlight the words using 'ch' to make a 'sh' sound

Record your score. Try again if you do get some wrong! Keep doing it till you get them all correct!

Remember **Perseverance** is one of your superpowers!
