

Thursday 21st May 2020

WALT understand fractions.

So, we are continuing with fractions today!

Let's warm up with TT Rockstars as normal...

Log onto TTRockstars and practice your times tables (the log ins were sent home in an envelope to you)

<https://trockstars.com/>

Yesterday we looked at adding and subtracting fractions, which we're going to continue with today.

WALT add and subtract fractions

We are going to launch straight to the video today, as there is some good problem solving here and that gives you plenty of time to work it out.

Watch the video on **Week 3 (w/c 4th May)** (Please note the date and week that we are looking at!)

Lesson 4:

I ate a chocolate bar while you were watching yesterday, but it is my sister's birthday today, so I am going to share a piece of cake with her (remotely of course!)

The screenshot shows a video player interface. The title of the video is 'Lesson 3 - Add and subtract fractions'. The main content area displays a bar model with two rows of boxes. The top row has 10 boxes, with the first 7 filled with blue. The bottom row has 10 boxes, with the first 2 filled with yellow. Below the bar model is a video player control bar showing a play button, a progress bar at 07:04, and a volume icon. The video title 'Lesson 3 - Add and subtract fractions' is also visible at the top of the player. On the right side of the player, there are two buttons: 'Get the Activity' (pink) and 'Get the Answers' (teal). Below each button is a small thumbnail and text indicating the video title and year: 'YG Lesson 3 Add and subtract fractions (2) 2019'.

When you have watched the video, have a go at the activity:

With the answers here:

<https://wrm-13b48.kxcdn.com/wp-content/uploads/2020/05/Y6-Lesson-4-Answers-Mixed-addition-and-subtraction-2019.pdf>

Well done on your fractions work this week - I know it can be challenging and it is really important to keep practising it!
