

# Music

The screenshot shows the LMS website interface. At the top, there is a navigation menu with links: HOME, ABOUT, EVENTS, LEARN WITH US, SCHOOLS, LMS TUTOR AREA, and CONTACT. Below the menu, the text 'on a weekly basis' is visible. The main content area is titled 'Week 1' and 'Part 1'. A video player is embedded, showing a stick figure with arrows indicating movement, and the word 'Movement' is displayed below the video. To the right of the video player is a green box with the 'munitox' logo and the text 'Years 5 & 6 Week 1 resources'. Below this box, there is a paragraph of text: 'You may find it easier to navigate the contents of the resource folder if, when the folder is open, you click for the drop-down menu labelled "All Documents" and select "Tiles" from that menu.'

This week, you will have a quick music lesson before every topic lesson. This will only last for 5-10 minutes!

Click on the link below and complete Part 1

Monday 27th April 2020

WALT identify features of countries on a map

This week, we're going to take a trip around the world. We're going to learn some key geography skills including:

- ★ Identifying countries, continents and capitals on a map
- ★ Identifying human and physical features of countries
- ★ Understanding the meaning of longitude, latitude and where the tropics are
- ★ Recap our learning about Mexico and compare it to somewhere in the UK

# Task 1

Watch this video:

<https://www.bbc.co.uk/bitesize/topics/zvsfr82/articles/znm7vk7>

Now look at the information underneath the video about ‘Globes’ and ‘maps and atlases’. Note down the key information you read including:

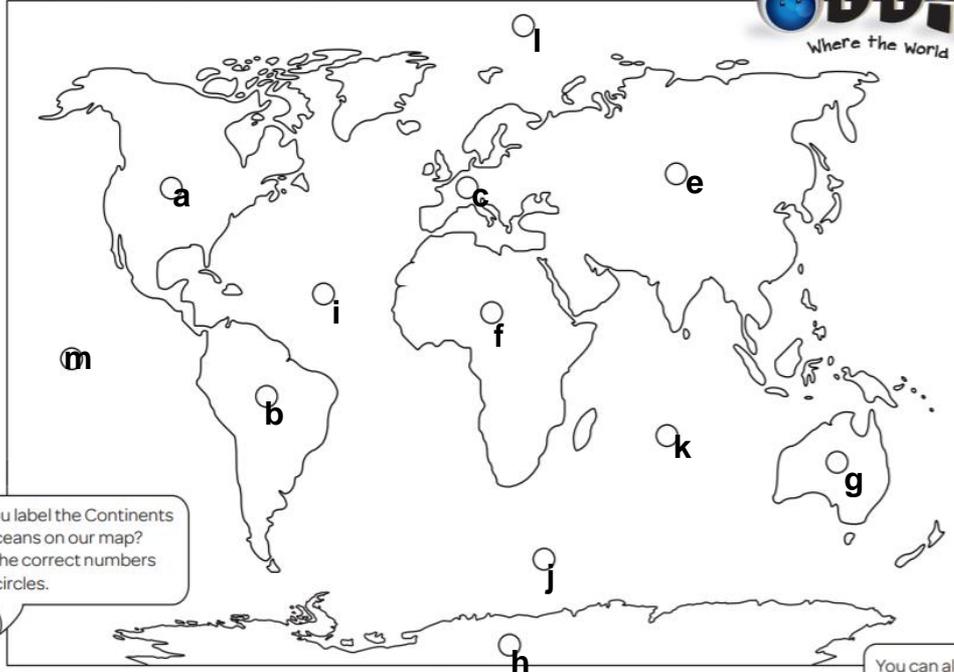

- The seven continents
- The difference between a map and a globe
- How recording maps has changed over history

Now take the quiz at the bottom of the web page. How many did you get right?

# Task 1 continued...

## 1. Continents and Oceans

ODDIZZI WORKSHEETS ©

Can you label the Continents and Oceans on our map? Write the correct numbers in the circles.

### Continents

1. Africa
2. Antarctica
3. Asia
4. Oceania
5. Europe
6. North America
7. South America

### Oceans

8. Arctic Ocean
9. Atlantic Ocean
10. Indian Ocean
11. Pacific Ocean
12. Southern Ocean

You can also colour in the map!

Label the map correctly with the continents and oceans.

If you can print it at home then do it directly onto the map. If you can't, use the letters to identify each one.

# Task 2

A really helpful tool we can use online to look at a map of the world is **google maps**.

You can access it here:

<https://www.google.co.uk/maps/>

Explore it for a few minutes.

Can you find your home?

Can you find Crown Lane?

Which city do you live in? What about country? Continent?

Can you find a different country around the world? It could be where you've been on holiday or where your family are from.

Use these buttons to zoom in and out

# Task 3

Draw this table in your book. Use google maps to explore different countries in **Europe**.

<b>What country am I?</b>	<b>Which continent am I in?</b>	<b>What is my capital city?</b>	<b>Which physical features can you see? (mountains, rivers, volcanos)</b>	<b>Which human features can you see? (towns, cities, roads)</b>
1. France	Europe	Paris	Fields, mountains	motorways

Use this map to help identify which continent your chosen country is in.

# Task 3 continued...

Repeat this task for 2 other continents: **North America** and **South America**.

What country am I?	Which continent am I in?	What is my capital city?	Which physical features can you see? (mountains, rivers, volcanos)	Which human features can you see? (towns, cities, roads)
1. Mexico	North America	Mexico city	Mountains, lakes, national parks	Motorways, cities, towns

## Task 4

Finally, test yourself on your capital city knowledge of countries in Europe!

<https://www.bbc.co.uk/cbbc/quizzes/top-class-european-capital-cities>

How did you do?

Try to improve your score tomorrow!
