## Getting ready for big school- name writing

Parents, I know some of you are helping your child to write their name which is great preparation for starting big school.

We teach the children letter sounds not names, the short video below is really useful

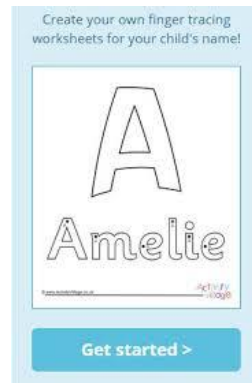

<https://www.youtube.com/watch?v=hCBzNnSSxds>

You do not need to teach your child every sound but if they can say the sounds of the letters in their name that would be a great start!

## Letter formation

It is also really important that children learn how to write their letters correctly, this means starting in the right place.

The Activity Village has a name tracing sheet- you do not need to print it, your child can trace over their name on the screen.

Flour, sugar, sand are also really good for your child to practice some of the letters of their name.

## Padlet

Please also try to use Padlet to share what you have been doing at home, thank you those of you who have had a go!
