

Today is

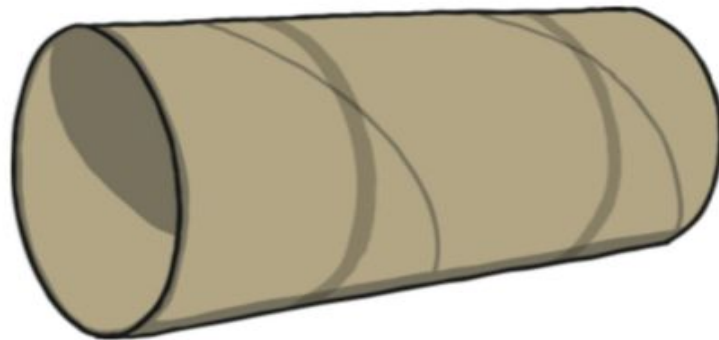

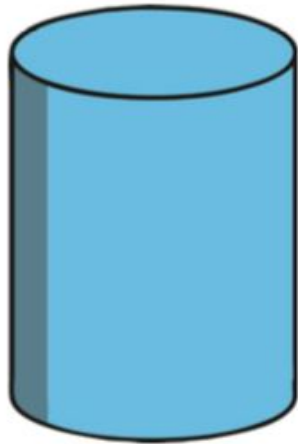

THURSDAY

The focus today is 3D shapes

Cylinders have...

2 circular faces

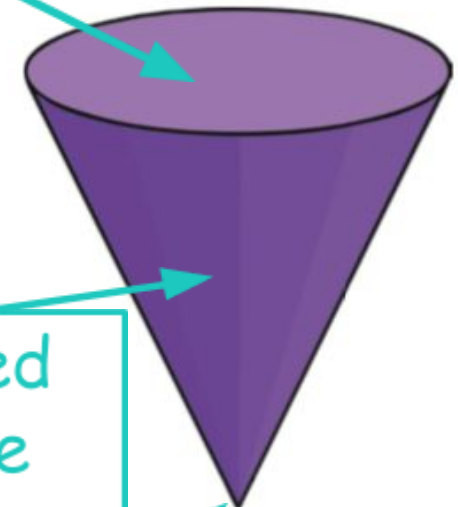

1 curved surface

Cones have...

1 circular face

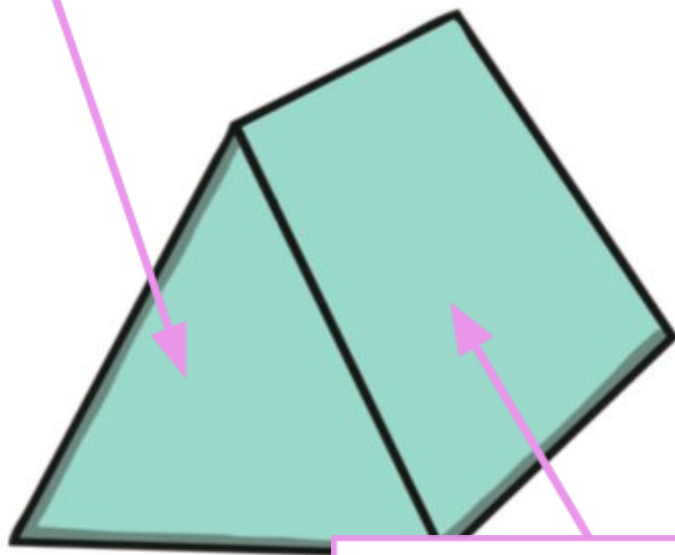

1 curved surface

1 corner

Triangular Prisms have...

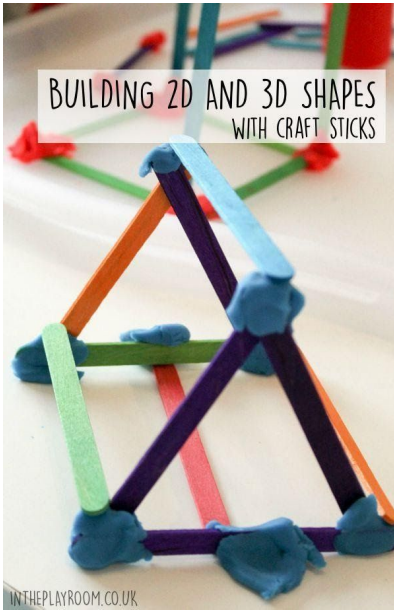

2 triangular faces

3 rectangular faces

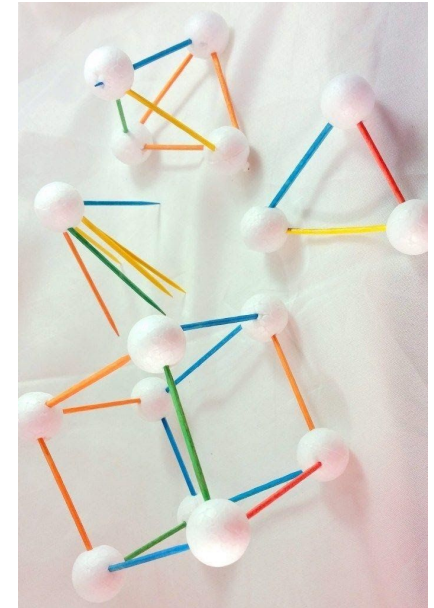

Can you find items at home to make one of these 3D shapes?

you can use:

straws, toothpicks, pipe cleaners or
earbuds for the edges.

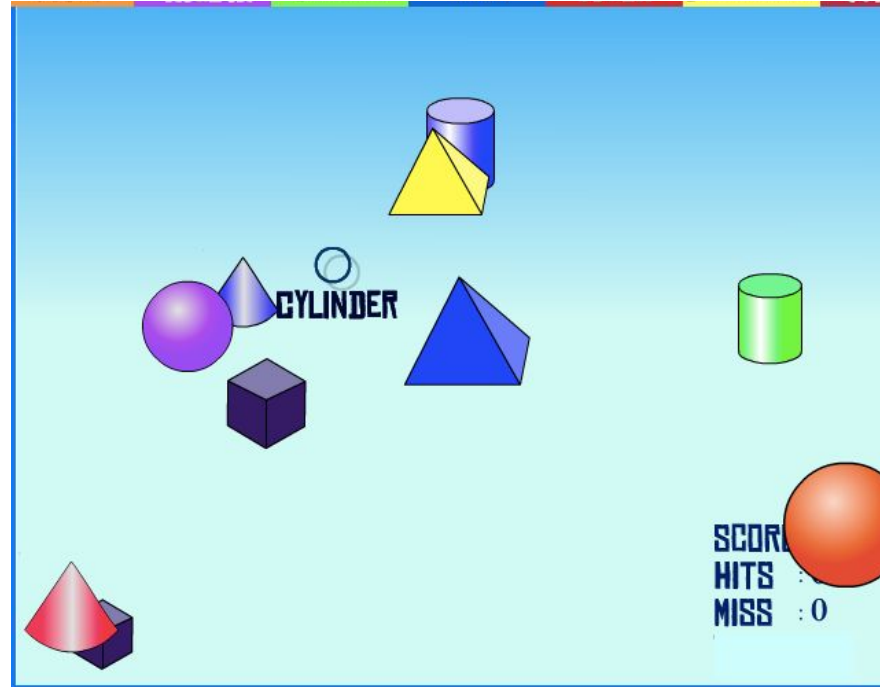

marshmallows, playdough or
polystyrene balls for the corners

Don't forget to share your creation on [ILD!](#)

Click the picture below for a fun game!

You may need your adults help but try using your phonics to read the words!
